In some instances, students will be expected to complete an extended or additional placement in an ASL rich environment to improve language proficiency in preparation for certification exams. Teacher candidates in ASL are required to pass the American Sign Language Proficiency Interview (ASLPI) before they can be recommended for state certification. To meet State expectations, the Neag School will make every effort to ensure that candidates reach the passing score level 3+(170). If a candidate does not score at this level, candidates will be required to participate in remediation activities that may include communicating with native and nonnative target language users of ASL, additional time in an ASL rich environment, proficiency-based courses, and collaborating with instructors specifically on proficiency goals, and participation in target language club activities in the Department of Linguistics. Candidates will be required to retake the ASLPI following the completion of their remediation plans.
